CROSSING MIDNIGHT ENT
Entertainment at its best!

Crossing Midnight started as a band making original music in college. After gaining popularity and being requested for weddings and private events, the band quickly started being booked frequently and officially became an entertainment company in 2010. Using their experience, versatility, and chemistry the band brought the best live music experience to every event.

Not being able to fulfill every date they were requested for, CME expanded and grew to having multiple bands and DJs. Caring about every client's experience, Rudy Valme, owner and bandleader, personally picked and trained everyone on the team: musicians, MCs and even everyone that handles bookings.

Crossing Midnight Entertainment is your best choice for live bands, DJs, photo booths, lighting and more. We provide memorable experiences for all occasions, including weddings and private events.
