

Photography & Video

PHOTOGRAPHY

I am a photographer & owner of GK Studios doing what I love...My name is Gerasimos Katehis born and raised in NYC and photography for me is a talent to capture beauty in things that are unnoticed.
It's not just a photo, it's ART.

As a photographer for 23 years, studied at Photographic School of Art and Science, our style is a modern story telling approach, where we blend some of the best of, documentary and photojournalistic style. In this way, we aspire to give you the best photographs we can, on your occasion day.

We understand that every bride and groom has their own unique style and specific need. That is why we offer custom tailored wedding packages with Ala Carte options to personalize your photography investment.
